Not feeling great, but I don't want to miss school! 🤔🦠

You definitely need to stay home. Don't risk getting other students or teachers sick. While most students and teachers aren't at high risk from illness, a lot of them have family members or friends who are.

COVID-19 spreads through respiratory droplets. If you're within 6 ft of others you can infect them by sneezing, coughing or even talking.

Dang. I don't want to be responsible for infecting others. 😞

Don't stress about missing school. Staying home is worth it if it means not infecting the rest of the school.

Thx! I didn't realize how easy it is to spread COVID-19.

I'm glad I could help.
